

Strength through Wisdom

Worongary State School is proud to present...

Would you like to learn how to develop your child's language skills and give them a great start at school?

*Read and Grow is a fun interactive story sharing program for **parents and children**. Throughout the program we will learn to listen, sing songs, share books and play together. This is a great way to develop your child's oral language skills and help prepare them for school.*

You're invited to attend our **FREE 6 week Read and Grow Program with your 3-5 year old children *who are not yet attending school***

When: Tuesday 9am to 9.45am
Starting Week 4 (14 February, 2017)

Where: Prep Maroon Classroom (Worongary State School)

Who: Parents and their children (3-5 years who are not yet attending Prep)

Come along and meet other parents and children – all welcome even if not intending to attend Worongary State School

For more information or to ask any questions, please contact Katie Huggard via email: khugg2@eq.edu.au

The program was put together by a speech language pathologist and early childhood teachers. Each week we will read a story and develop language skills through reading, songs, play and craft - practicing the skills we know are important for school readiness such as:

- *Focusing on key words and concepts*
- *asking and answering questions*
- *noticing the print and the written word in the story or title*
